Topic: Ability to Predict and Change the Way of the Future

p. 1 of 2

There is at this time on Earth an opportunity for mankind to predict and change the way of the future simply through Spiritual Energy. John has become aware of this since passing to Spirit and does wish to share this with you. In other words, those who are OMEGA now have an opportunity to use their abilities; and John would describe this way.

When those who are OMEGA were given an opportunity to return to Earth and again be joined on Earth for a common mission, it was understood by all that they would be given an opportunity to use special abilities that would become available to them while Spirit-in-Body. John can now see and understand the necessity for those abilities as John looks upon mankind from the vantage point of Spirit.

What is happening on the Earth at this time is, of course, known to you. There is much in the way of violence and greed on the Earth Plane; and that, in turn, does not provide for a time of introspection that will lead to a spiritual awareness that is so much needed. Mankind has forsaken that for which his spirit yearns while Spirit-in-Body .

What John wishes now is to provide this information. When you have an opportunity to seek after those things of Spirit, it should be eagerly pursued, for indeed there is much that can be gained by so doing. And so as you are on Earth now to fulfill the mission for which you came, John can foresee the need for the use of those abilities that come through Spiritual growth, Spiritual awareness. And so John would urge each of you who are OMEGA to seek within yourself to know the will of the Creator for your life and then in turn to become a viable and visible instrument on the Earth Plane as you attempt to use your energy and your talents for the Glory of the Creator.

What is important is to understand the NEED at this particular time. When you live as Spirit-in-Body, it is known that you will experience much and learn much; but there is often much learned that does not justify the time spent in learning in a particular area. So first, there must be an effort to lay aside those things that are not vitally important for your life style on Earth and continue to proceed toward that goal of Spiritual growth. This, in turn, will enable you to more fully use the talents and abilities that are within you.

And so at this time John comes to help you prepare for a time that is ahead. . . a time of much unrest in your country and a time of need for level heads and critical reasoning. It is known that there will be much occurring that will disturb the stability of the country in which you live. Know that with the unrest in the remainder of the world it is vitally important that this country in which you live continues to be a nation of stability. Look around your Earth Plane. Simply call to mind those areas of unrest, of need, of want, of violence on the Earth. Know that this is not as it should be. And what has brought this about is unrest among the people and the rulers of those countries. What then has led to the unrest?? John would say this. . . .that as mankind has sought to control others, it has in most cases been control for the sake of control rather than the needs of those who are being controlled. Greed has ruled the hearts of mankind, and this can be greed for power as well as riches.

As it has been noted throughout the history of mankind, power does indeed create monsters; and this has occurred and will continue to occur on the Earth. What is needed is for those who are OMEGA to simply shed from themselves the need to assemble selves with a particular faction on Earth and turn within to know the will of the Creator, that they may more fully be an objective citizen of the Earth Plane. . . and then to allow their voices to be known in order that they may begin to influence the actions of those who are on Earth.

You have heretofore been concerned about a physical happening on Earth. . . the Chaos, as it has been told. . .but know that indeed there is a chaos upon the Earth that is affecting mankind in many ways. And as mankind is focused daily on the rapid communicating devices that are available to those who would be rulers, know that there is the immediate instrument for influence by those who would choose to be in power. You need to make use of those instruments for influence by allowing your voices to be heard, regardless of your affiliations with political thought on Earth. It must be known that you have a higher responsibility at this time as you seek to broaden the views of those who are in power and attempt to circumvent their moves for increasing power over the people.

John appears, perhaps, to be overly concerned about this; but consider that John was a member of the ruling government for many years on the Earth Plane and is now fully aware of the machinations that are often used by government to coerce those who are governed. Become alert; open your minds to Truth; and seek to use your abilities to communicate with those who are rulers and those who are ruled.

John is perhaps concerned for many reasons, but foremost is the protection of freedom for all people that would allow them the opportunity to seek for spiritual understanding. And so mankind finds self in a perilous time on Earth. May hearts and minds be opened to Truth, and may you use those God-given abilities which each of you have to attempt to influence those who are leaders, towards things of Spirit.

p. 2 of 2

If you will allow at this time, John would continue with this. When mankind first began to cluster on the Earth Plane, it became known that if they were to live together there must be rules of conduct that would allow all to live together in peace and harmony. And as the numbers increased, those simple rules of conduct and behavior began to become more inclusive and more infringing upon the freedom of mankind. This, in turn, began to foment discontent, and thereafter power cliques began. Soon there were opposing groups, and soon there was discontent and violence and wars among mankind.

To begin to make matters much worse, there began to be group religions with leaders often making decisions about what would and would not be tolerated with regard to religious beliefs. Look upon your world today. . .the many factions upon the Earth, the many rulers, the many people who have been so thoroughly indoctrinated with man-made beliefs, and religious intolerance and bigotry that will not allow peace among mankind. The Earth Plane is seething with a hatred that is poisoning the Earth; and we who are in Spirit recognize the inevitable result of such foment.

It must be that all who are OMEGA would in their own way begin to become an active instrument for holding back the tide of hate and discontent. You have the power of prayer; you have the ability to think; you have the opportunity to use your spiritual knowledge. And John would ask that you become actively involved in allowing others, especially those who are your political and religious leaders, know of your thoughts and act responsibly as an OMEGAN who is dedicated to serving the Creator. There is much sorrow in the Spirit Realm with regard to the present problems on Earth; and we who are in Spirit seek for your assistance as OMEGA. Know that as you dedicate self to this work, you will be given strength and wisdom to do that which is needed. Go now in Peace and John will talk in the day to come.

JEY is here and would ask that you consider the beginning of a campaign to act upon the knowledge and wisdom that you have been given. Go now in Peace. Amen.
