(Retreat at the Home of Allen and Emma Perkins)

JEY is here. JEY comes now to welcome those of you who are here at this time in this group which is called OMEGA. Know that as JEY is here, it is necessary for JEY to advise you with regard to the role which JEY plays at this time. Those of you who are new here at this time need to understand that as you are Spirit-in—Body upon the Earth Plane, you are not left alone. And so it is that as the Creator of us all has seen fit to so give you the assistance that you need as you are Spirit-in-Body, those of us who are in Spirit do have the opportunity to serve you in the capacity of Guardian of Spirit. JEY serves in that capacity for this one who is known as Louise. You must understand that each of you do indeed have the opportunity to so access information from your own Guardian of Spirit, even as this one has the ability to do so. But know that as JEY is aware at this time, it was necessary for this one who is serving as voice to be upon the Earth and to be able to community with those of us who are In Spirit in order to allow the will of the Creator to be done upon the Earth at this time.

Gathered here at this time are those who were known in the Spirit Realm, and have been known throughout many eons, to be that which is OMEGA; and it is then the opportunity for those who are now gathered here and those who are known throughout your land as OMEGA to understand their purpose upon the Earth at this time. It is important that each of you allow your heart and your mind to be open to Truth at this time and to allow meditation to be continued in order that you may be able to receive the information that is to be given.

What JEY would say to you at this time is that it is wise that you understand the need to be in a time of meditation at this hour, and for you to understand that JEY did indeed have a message to give at this hour. It is important for you to accept that those of us who are in the Spirit Realm have the opportunity to be advised of information that will affect your lives upon the Earth. And so at this time JEY wishes to simply comment upon that note.

Be aware that upon the Earth there are indeed changes that take place. This is one of those minor changes that you consider throughout the time of a year as you know it. As you change from one mode within the land and go into another, you are well aware in your own physical body of the changes that take place... for indeed there is a change in the atmosphere that surrounds you. And so such change will affect those living things upon the Earth. And even now as you can see the changes taking place in those living plants that surround you, you can be aware that there is a change taking place within your own being.

JEY will say to you that such a change is expected upon the Earth, and it is known that it will occur each year of your life. What JEY wishes to say to you now is this... that there are other changes that occur upon the Earth, and throughout the many eons that the Earth has been in existence there have been changes that have taken place throughout time. And that is what OMEGA is now formed to observe..., the **major change** that is to take place. And so even as you go very carefully and very acceptingly into this change which you now face where the living things are changing form and color, know that even as the major change occurs upon the Earth Plane it will be a physical change that will herald an opportunity for you to observe those changes that will indeed become a cleansing of the Earth. That is not to be denied; it is not to be feared. But simply know that you have at this time the opportunity to prepare for such.

JEY would advise each of you who are here to be open to that which is not only your Guardian of Spirit, but also to that which is the very Spirit Within you. It is from that Spirit that you will always be able to understand and accept the Truth that is given. And as you open your heart and your mind each day of your life and ask that the Spirit Within you would be able to help you in your own mental aspect, know that it can be so. As you ask for guidance, so it shall be given to you.

JEY at this time has the opportunity to allow another to come and communicate through the voice of this one for the purpose of further advising you in regard to the change that is ahead. Know that as you sit here, very comfortable in this place and surrounded by others of like mind, you have no fear about those things that are talked about. But you must understand that there are many upon the Earth Plane who are not open to Spirit and who would have great fear of simply knowing that there is a major change ahead upon the Earth Plane.

And so It is that JEY would advise you to simply now be open to what is to be said, and accept that you are Spirit in the **body that exists upon the Earth, for indeed Spirit is the reality of you.** This body which you inhabit will **indeed wane and pass on much** as those leaves you see upon the trees at this time; but the Spirit Within you is for eternity, and it is that Spirit that those of us who are in the Spirit Realm seek to have you nourish and allow to communicate with you. And so JEY would ask you to remain

now in meditation and allow another to come. That one, too, will come in the will of the Creator, even as JEY has done. Peace be with you.

THIS ONE COMES BECAUSE IT HAS BEEN ANNOUNCED TO YOU THAT THERE WOULD BE ONE COME TO ADDRESS YOU. But this one would say to you that it is only through the will of the Creator that It be so that this one would be here In your midst at this time.

This one who comes now in Spirit to address those of you who are Spirit-in-Body would say to you that there is an opportunity for you to receive information that can be given, because it is necessary for you at this time. This one will simply identify to you again as one who is a BRINGER OF KNOWLEDGE, for indeed that one has communicated with you in the past.. .one who can bring information, one who can bring knowledge. And so this one would further share with you those things that can be shared, those things that you will understand at this time.

All of you who are gathered here are aware that as you look out upon the Earth which you inhabit, there is much beauty, there is much diversity in the Earth that surrounds you. And even with that note made, know that many things have changed through the eons upon the Earth. There is no resemblance, for instance, to the Earth as you see it now as it was in the early beginning. And so inasmuch as the Earth is a living physical thing, there are those things that take place within and upon the Earth that must be expected by mankind. Even as you look upon those things that are growing upon the face of the Earth, you are aware that there is much in the way of diversity within those living things. And as you will note, there are aspects of those living things that simply fade away; and they in turn renew that which is life. But there are those things that fade away and do not become renewed, but they return again to the Earth In order to replenish those things that are necessary for the Earth in order to grow other things.

What we are attempting to say to you at this time is that mankind, even as those other living things upon Earth, must indeed return that which is the human aspect.. .the body.. .to the Earth. Know that even then, however, that which is the reality of you.. .that which is the Spirit.. .does escape from the body which has been an encumbrance upon the Earth, and returns to the Realm of Spirit. It is necessary for the Spirit to live in **Body** in order for that body to be able to use the mental and physical aspects to create an atmosphere upon the Earth that will provide an opportunity for learning and for fulfilling the will of the Creator while upon the Earth. You must understand that your life upon the Earth is not for naught. Your life is important, even as that which is the living aspect of the Earth is important. **Life is important.** It is important for you to understand **the role that you play upon the Earth In relationship** to the will of the Creator.

And so with that in mind, allow this one to further delve into information that is necessary for you to know at this time. There is at this moment an aspect of change taking place upon the Earth. It is affecting many who live upon the Earth. And it is because of the change within the Earth.. .which is causing the change upon the Earth.., there are being many people and many things affected. You are preparing at this time to be available to help those people at a time where there will be those happenings which they will not be able to cope with. Accept now your **role**; accept the importance of your Spirit upon the Earth at this time. You are Spirits of great value; you are Spirits of great courage, because you have accepted the role while you are to play. But this one would say to you, In addition, that even as you are preparing now, there is to be an assurance to you that, yes, those changes will take place; and, yes, you will be prepared.

If you cannot accept such at this moment, be aware that you need only to affirm to self that you wish to withdraw from your purpose upon Earth at this time. If you so withdraw, you can understand that your purpose has not been fulfilled and therefore you will return to the Spirit Realm with the knowledge that you had failed in fulfilling the purpose that you had agreed to in times past. This does not mean that you will no longer live in Spirit. Of course, your Spirit does exist for all of Eternity. But there would be a time of great sorrow on the part of the Spirit that would have to know that it would need to return again to the Earth Plane to attempt to fulfill a purpose in later years to come.

What this one also wishes to say is that as you now are enlightened in regard to that which is Spirit, with regard to that which is your purpose upon the Earth, in regard to your relationship to the Creator of the Universe.., know that you must accept that what is being said to you is given to you because it Is for your further understanding and for the purpose of your fulfillment of the need upon the Earth.

Perhaps this one has rambled in many aspects of those things that have been said; but all of this leads to one thing that this one needs to say to you.

There is in effect at this time many things happening upon the Earth that do not promote a healing of the Earth and a healing of Spiritual understanding between mankind upon Earth. There are so many upon the Earth Plane at this time who are separated because of their personal beliefs with regard to their purpose upon the Earth. Many are separated by religions; many are separated by race, by origin, by those countries

in which they live. And, yes, in your own country as well as in other countries, there is a great separation because of what you consider to be your political stance in this country. Know that there is a great sense of frustration among those of us who are In the Spirit Realm at this time, as those of us who are here can **see what is occurring within your very midst upon the Earth. Know that in addition to all of these divisions** among mankind upon Earth, there is also the healing that needs to take place upon the Earth with regard to the physical aspect... the cleansing that needs to take place.

And so as you look around you, understand that this Earth will not longer be as it is at this time. There are to be changes that will come. You must understand this. And it is important for you then to be stronger in your own Spiritual Growth. Know that you must allow **the Spirit Within you to regain a rightful place in** your own thinking and your own understanding. It is through that Spirit that you will be led through that which is ahead. Those of us who come to you to give information as we dwell in the Realm of Spirit can help you now in preparation; but there will not be **this access in the time that is to come. So simply accept that the role of Spirit Within you in this life is of utmost importance. You are all aware of that; but somehow there seems to be not the urgency that we had hoped you would have at this time. And so this one is simply coming to you and asking you again and urging you to accept the role of your own Spirit in your life upon this Earth.** It is important for you.

And as you now are talking about the changing of seasons, allow it to be that with this change of season, **there will also be a change in your own understanding** of the importance **of Spirit Within you, as it is at** this time necessary for you to promote a closer relationship with that which is Spirit.

We who are in Spirit would **urge you to recognize more fully the relationship you have to your Creator, to our Creator, for indeed the Creator of us all does** have the essence of a positive energy that can change those things that are occurring upon the Earth. It is important that you look within, that you allow your thoughts to go out from you, that you simply through those thoughts as you are in prayer ask for the help of the Creator of us all. And know that when that occurs, those who are in Spirit will be in your midst to guide you and help you and strengthen you. It is important that you simply at this moment make a change in your life, make a change In your direction. And that is the purpose of the visit of this one at this time... simply to make this impression upon you. Even **as the Earth is changing, it is important for each of you to make this change into a more positive direction. Be at Peace with** that.

JEY returns and would at this time ask that you keep this in mind..., those things that have been said to you. JEY would further address those who are here as newcomers to this which is the meeting. Know that these things have not been said to frighten, but rather to encourage. And It is important that you be open to what has been said. JEY would also advise that as you are in a need of help In your life that you simply ask for that help through your own prayers, through your need for understanding. Know that your Spirit Within you can promote an understanding that you need of various problems that impact your life at this time. You are not alone upon this Earth. You do indeed have the help of the one who is your Guardian of Spirit; and above all of that which is the very Spirit Within you, for that Spirit is **of the** Creator and does inhabit your physical body for a purpose. Allow that purpose to be fulfilled in your life. Go now in Love and know that JEY has come in a time of Peace and Love, and in the will of the Creator. Be at Peace.

AMEN.
