

AUGUST 20, 1998

JEY is here and is aware of your thoughts. As JEY understands, there is much occurring in the world at this time; and those of your country are indeed not blameless. Know that as you have sought this day to understand, it is important that you now give time to allow others to help in your thoughts. Be at peace with that.

It is important that you at this time allowed JEY to communicate, for you are in a time of needing to be at peace and to give your body and mind some respite from the day's cares. Now at this time allow JEY to say this further. There is at this time upon the earth an understanding that there will be that which is great upheavals soon to come. This will involve not only violence among nations, but also the earth changes that have been long expected. Know that as one country invades another with violence. That starts a thread of violence around the earth. And whereas individuals have in the past been responsible for much violence, it is now taking a new route, and that is nation against nation. And so you in your country need to be prepared for that which will be attacks upon your own soil. It is important that you be alert to all that will come in the future and be prepared to protect self and others who you love. Be at peace. Know that your paths will be protected as we who are in spirit can protect them. JEY is aware that this may be unwanted information, but know there is a need for you to hear more. Allow this to be simply a notice of what is to come. At this time it is important that you allow another to communicate. So be it. Now wait.

John is here and is now able to communicate. It is important for John to have your complete concentration. Be at peace. John is now able to communicate. Your thoughts have been sent forth and many are also concerned in the spirit realm. It is now a time of great decisions around the earth; and it is important that those who are in spirit would be alert to the need to help. And so as you pray for the countries of the world, your thoughts have been heard. And those in spirit become aware of the great need. As you are aware, John has in the past talked with you about the perilous times ahead, and now they are here for you. It is important that you be prepared to rely on your own knowledge and to allow others to be alerted to the need for preparation. As John in spirit can see, there is now great chaos upon the earth and there will be great need for many to seek after vengeance. That is what your country is now in the process of doing: and through the violence that they have unleashed this day, there will be many upon the earth suffer. And as others begin to seek for vengeance, it would appear that mankind has learned nothing from history, and there is at this time a greater problem for indeed the weapons of destruction far outweigh all that have been available in the past. And so now no spot on the earth is safe from those weapons that are designed to destruct and kill. We who are in spirit are saddened by that which is occurring. (at this point I had a thought which I do not now recall.) John hears and would allow you to know that John does have the responsibility of helping still with OMEGA and will attempt to give guidance where there is a need. Give time to allowing the one who is JEY to again communicate with you, and know that John remains in your life and love as you continue to work upon the earth. Be at peace and go in that love.

JEY is here and does return to complete this communication. JEY is aware that there is to be a great change in government which you have in this country at this time. It would seem that the one who is president will find it is no longer possible for him to represent your peoples upon the earth. His actions have taken away his credibility, and so as you face the days ahead, you will see changes come about. Pray that your people will be guided by their spirit as they proceed with their lives on earth.

Go now in love and be at peace. Amen.
