

February 15, 2000

JEY is here and does come now with much thanks for those of you who are here at this time. Allow it to be known to you that as always, JEY does come in the will of the Creator, and it is important for you to understand that. It is important that you be aware that as you have allowed JEY to be the gatekeeper for OMEGA for all of these years during which you have been searching for Truth, you can be assured that those who come to you do come in the will of the Creator, and as a result of that must come and share Truth with you. And so as JEY is here at this time, it is with much thanks and much Love, for indeed you are that which is special in the time upon the Earth in which you live.

It is important that you allow the knowledge that has been given to you to become a part of your very being as you have come to understand many things during these months and months of searching. You have been given much which has helped you to awaken to the Truth that you needed to know as you began your search upon the Earth. And so at this time JEY would as you to simply be open to that which will be more Truth that will be given to you during this time of meeting.

Allow JEY to say this to you as well. As each of you has come to be here in this gathering at this time, there has been a purpose for your being here. You have felt a need to be here. And so JEY can assure you that need is to be fulfilled at this time upon the Earth. As you are gathered here, there will be one come to share with you the truths that you need to know at this moment of your life upon the Earth. Be at Peace and know JEY will allow that one to come to be in your presence, and does give thanks that it can be so. Be now at Peace.

OPEN NOW YOUR HEARTS. OPEN YOUR MINDS. BE AT PEACE. Know that you are in a time of acceptance of those things of Truth that can be given to you and have been given to you. And so simply know that as you are here gathered, we who come to be in your presence are here to share with you further Truths that can indeed enlighten your understanding.

As we have been aware of this time of meeting and this time of discussion, we have come to be in a time of sharing further Truth with you with regard to that which was the introduction of the teachings of the one who was known as Jesus upon the Earth...that which was the embodiment of the Christ Spirit. This one will come simply to identify to you as one who has known the embodiment of the Christ Spirit in many eons past. You have been aware of those embodiments through the knowledge you have learned in times past; but be aware that this one has not yet been made known to you. And so this one would simply come and identify to you as one who did indeed embody the Christ Spirit upon the Earth many eons ago, long before that which was recorded history that you now know. But be aware that the Christ Spirit has come to walk among mankind in that which has been a body many times upon the Earth Plane. And so this one will come to share with you what it was like upon the Earth Plane at that time, what the beliefs were of those people who were upon the Earth Plane at that time, what those spirits which were in the bodies of mankind during that time did understand---both about that which was the Spirit world and that which was life upon the Earth. And so let this one begin.

There was a time upon this Earth that you now inhabit where little was known about the fact that there was life beyond the region in which mankind lived...that they were indeed all that there was. There was no way for those who inhabited that particular spot to know of anything beyond what they themselves knew. And so the one who came at that time and embodied that which was to be the Christ Spirit came for a purpose and did come with the understanding that there was a purpose that needed to be fulfilled. And so as the Christ Spirit came and appeared to that group of people, it was for the purpose of allowing those people to know that indeed there was a superior being within the universe, that there was that which existed beyond them and before them and which would come after them. And so this one came and yet was not received, for indeed they could not be awakened from the lethargy in which they found themselves. They

were indeed intent on being content with that which they were and could not see further than that which they were. They could not imagine a people or a land beyond themselves. And so that which was the Christ Spirit.....even though there was the attempt to try to broaden their horizon to reach the spirit within them in order that it may be able to awaken the intelligence of the people who existed there.....it was not the ability of the Christ Spirit to be able to accomplish.

So as you discuss now within this meeting at this time, you are to be aware of all that has transpired since that particular period of time. Think of those strides that have been taken and made in the understanding of mankind down through the ages. Many things that you may find ridiculous in your own thinking at this time, but nevertheless of importance to you, because you as a physical being would not be where you are at this time had not those things of a spiritual understanding taken place down through the many eons that have evolved since that time when this one inhabited a body as a Christ Spirit and then could not go further. And so this one...the spirit of that one which was the spirit of the body that the Christ Spirit inhabited at that time...comes to tell you that you are indeed blessed to live within this time upon the Earth Plane, even with all the shortcomings of mankind as you see them; for you are an enlightened being now. You have been able to think beyond the region in which you live. You have been able to think beyond the Earth on which you live. And you have been made aware that not only is there the Universe, but there is also beyond that Universe many Universes that you little dreamed of in the early life that you lived upon this Earth.

This one can tell you that because of that lifetime when mankind knew little and was unwilling to accept more, that this Spirit now has evolved through the many, many eons through that which you call reincarnation, and has now come up through the time on Earth where it is known that there is much that has been learned, much advancement. Now you are here because you, too....your Spirit.... has evolved through the ages and now inhabits a body and an intelligence that is willing to accept that which you are being given at this time. This one gives thanks and praise to our Creator for that, for indeed you are blessed. You live in a time of blessings. You live upon an Earth where those who are Spirit-in-Body have been enlightened; and yet there is much to be done. You have an opportunity, through the Truths that you know, to help, to enlighten all those who come into your presence and seek after that which is a kind of understanding. Do not let this pass you by. Be willing to take the responsibility of giving and sharing the Truths that you know. Indeed when one approaches you and asks for your opinion or advice of that which is a spiritual aspect of their lives, they are then ready to accept the Truth that you can share with them.

This one will say to you that your Spirit is indeed strong. Your Spirit will never fail you. And as your Spirit leads you to speak to one, to help one who can come to you, be aware that you can be assured that the Truth you can share will be given and accepted by those to whom it is given. And so this one would come to you to ask you to be patient with those who do not accept immediately. Be loving to them. Accept them as a Spirit-in-Body, not just as a body that is afraid of accepting something they are not familiar with. Know that every body carries that which is of the Creator, even as this one is of the Creator, even as each of you who are here have a spirit that is of the Creator. You are strong beyond all belief. If you will allow your Spirit within you to guide you, you have nothing to fear. And so as you have an opportunity to share Truth, know this one can tell you from those eons ago.... when this spirit was in a body that did indeed then encompass the Christ Spirit.... that there has been much occur in the way of mankind's understanding.

We who are now in Spirit will tell you that there is no end to learning. There will always be that which can be learned about the Universe, for it has been said to you that the Creator IS UNIVERSE; the Creator is indeed a Spiritual entity that is a great and powerful force within these Universes which you are now aware of. Accept this. Do not be afraid, for you are being given Truth. And as this Earth on which you live continues to evolve, there will be a greater understanding that mankind will have. But you have the opportunity now to direct energies to this Earth and to mankind upon the Earth through your thoughts, the knowledge that you have...to

send forth those thoughts now only to those who are around you but to the Earth Plane and all those on the Earth. They are vital to the Earth at this time. And this one will tell you that in the time to come, you will live as Spirit in Body to see the changes come about. They are happening at this time. And as mankind sees more and more those Earth Changes that you see now taking place upon the Earth, they will come to realize that it is not just science that man must depend upon, but it must be something more than that. There has to be more than that which you would call a scientific understanding. YES! It is true that mankind knows about things, but mankind is not able to control all things! And so this is where your Spiritual knowledge will help all who come to your presence to be able to accept and deal with all that is occurring upon the Earth. Allow this one to say once more....YOU ARE SPECIAL, YOU ARE BLESSED, YOU HAVE THE OPPORTUNITY NOW TO MAKE A DIFFERENCE UPON THE EARTH....even as you have understood this before! Know that you are not alone. We who are in Spirit come to help you and you need only to ask for our help when there is a need. And so this one will give thanks and praise to our Creator for having had the opportunity to come and share with you the knowledge that yes there have been times when mankind would not accept; but you have reached the point where many are accepting. Your spirit has evolved through the ages and has come to this point where you are able to share with people who will accept. PRAISE GOD OUR CREATOR FOR THAT. You have arrived at that time. Be at Peace. Know that we who are in the Spirit Realm come to share with you because it is our joy to do so; and we do give thanks and praise to the eternal force that does indeed bring this which is the Universe and the Universes that exist into focus that will help you to understand that you are important, although you may feel that you are small throughout all the Universes you are important. You have great worth. Be at Peace with that. Know this one has come with much Love. Go now in Love.

JEY returns and would ask you simply to accept what you have been given. It has been given with Love and has come to you as Truth. You must understand that you have indeed accepted the responsibility of your Journey upon the Earth. You will have a time of completion for that journey. Go now in Peace. AMEN.
