

May 06, 2002

(We had reviewed a message dated May 9, 1995, and also an early SECHA message).

JEY is here and has been in your midst during this time of meeting. It is with great joy that JEY has been able to understand your thoughts and your concerns for not only your own spiritual welfare but also the welfare of mankind upon the Earth. JEY can tell you that as you sit here at this time and allow your thoughts to go out to those of us who are in Spirit, they indeed do give the added energy that is needed to attempt to help others upon the Earth Plane to allow their thoughts and their hearts to go out to love their fellow man rather than destruction.

JEY comes at this time to help each of you to understand that which is occurring upon the Earth at this time in order that you may be able to receive an assurance that indeed you are completing that which is necessary for you to complete upon the Earth.

At this time JEY wishes to say this. You have within your midst those of us who are in the Spirit Realm who have come to be with you and to give you the added Spiritual Energy that you need at this time upon the Earth; and to help you in your understanding of those things of Spiritual importance. We come also to advise you in the ways in which you may be able to help others upon the Earth at this time who are in a time of doubting that which is the will of the Creator upon the Earth. You have an opportunity now to talk with others who come into your presence and allow them to know that indeed they are OF the Creator and do now have an opportunity to fully serve the Creator upon the Earth. And as you have that opportunity, know that you can indeed accept your responsibility with the knowledge that what you will be able to do and to say to those who come into your presence that they will understand and be led to follow after that which is the cause of Love and Peace upon the Earth.

At this time allow JEY to address the concern that you have within the group. It has been known through the thoughts of the one serving as instrument, and through other discussion that has taken place during this time of meeting, about the dream of one who is the son of Donna. It is important that you come to those of us who are in Spirit to ask of assistance when you have a concern about one who is a youth upon the Earth and who does indeed seek after the help of Spirit, as they have an opportunity to do so and a reason to do so.

Allow JEY to say this. That which is a concern of the one known to you as Mark is known to us who are in Spirit at this time. And JEY would have this to say that would help not only that one but also the mother of the one. It is important as those who are young in body upon the Earth have an opportunity to seek after information that will help them to understand their lives and their thinking upon the Earth, that you not hesitate to call upon those of us in Spirit in order to be able to receive the assistance that can be given. What JEY can say at this time with regard to that one is this. As that one did experience that which was an anxiety and a concern and did indeed ask for the help of his mother to try to understand why he was feeling so, it is important for that one then to be able to receive the help that came to him through a time of sleep, that which was a dream state. JEY would tell you with regard to that dream about the idea that he was seeing those within his dream who were attempting to commit a death sentence upon an animal that he little knew about, that you can be sure that there is indeed a deep meaning to the dream. What JEY will say is this. Indeed in the dream of that young life there is a concern within his own thinking at this time for all that he hears which is available to him through what you would call the news reports, available to him each day, and he is concerned about what is occurring upon the Earth at this time. And that which was the animal, which he knew very little about, was being held hostage. In other words, upon the Earth at this time **Love and Peace are being held hostage to mankind in many parts of the Earth at this time. And so the Love and Peace which the animal represented is being, in other words, assassinated. The Love of mankind for another, the Peace of all mankind....these are ALL being held hostage and you indeed will find that they are being brought down....in other words they are being**

assassinated by those who would not like the idea of all mankind living together with Peace and Love among mankind.

And WHY is this so? As you have been told, Love and Peace are those things which should be sought after by all who are Spirit-in-body. And yet, there are those who are Spirit-in-Body who feel that if there is such a thing as mankind being brought together by Love and by Peace, their attempt to be in control of others upon the Earth will have failed. They cannot control others if there is NO Love and Peace by everyone who is living upon the Earth. And so those who would commit the heinous act of attempting to assassinate those intangible things of Love and Peace will find that they cannot control all that belongs to the Creator of All Things. In other words, they themselves will have to suffer an agony because they have attempted to destroy the two most important things of mankind....Love and Peace.

This must not be allowed....that others would control these very important aspects that the Creator of Us All has given to mankind to enjoy. And so at this time it is important that each of you understand that within your own life you must not give a short time to deciding that Love and that which is Peace are the important things for you as well. In your life you must know those two things, and they must become an important aspect of your life. And even as they are important aspects of YOUR life, you must help OTHERS to understand..... whether they be loved ones within your family or friends, or even those with whom you work..... that if they can simply incorporate Love and Peace within their lives and thinking every day, and not dwell upon the destruction and hate and killing upon the Earth that is taking place now, you can indeed become a force for Love and Peace overcoming all other acts upon the Earth.

Those are the things that you must incorporate in your daily lives, in your prayers, in your thoughts that go out to others. And if per chance in your own lives you have loved ones who are not enjoying those aspects of life, you must go to them and encourage them to think not upon the negative aspects but upon those things which are very positive in the thinking of Love and Peace.

JEY would ask each of you who are here to simply vow to yourselves that from this day forth you will attempt to assign to others an opportunity to learn the important things in life....again, Love and Peace. Even as you have read in your time of meeting at this time, the one who was the Christ Spirit came to Earth to teach mankind Love, to teach mankind how to be at Peace and it has not changed upon the Earth at this time. That is still what the Christ Spirit would like for people to do....and that is to teach mankind to Love, and to teach mankind that they be at Peace.

JEY would say that it has been worthwhile for you to review those messages at this time of meeting. It is important that you make them a part of your daily living, for in those readings you have found many aspects of your life that can be strengthened by what has been given....and mainly to talk about Love and Peace, and protection of the Earth on which you live. Those are all important for you at this time. Know that these things will strengthen you in the days to come, where it may be necessary for you to do more than just think about these aspects of life. You may be called upon to give others the hope that they need on Earth at this time simply through a simple message of maintaining the structure of the Earth on which you live and the fulfilling of the Spirit, and that is that you love others as you love the Creator, and that you seek for peace always within your life.

JEY would ask that you keep these thoughts in your mind and allow others to know, too, this which has been given to you. It is important that you continue to ask JEY to come and communicate with you, for you are in a time upon the Earth once again where it is important that JEY have access to a voice that then can be heard throughout the land as you allow these thoughts to be put in printed form and sent forth.

Be at Peace. Know that JEY has come in Love, and JEY does continue in your lives daily and will always be there for you as there is a need. Go now in Peace and know that as you are here, you are surrounded by the love of many who are in your presence. They will continue to be with you. Go now in Love. Be at Peace, and provide for the opportunity for the fulfillment of life upon the Earth, that it may be able to live on a planet of Peace and Joy and Beauty. AMEN.
