

**July 10, 2002**

JEY is here and JEY has indeed been in your presence and has listened with joy to those things which you have been discussing. Your minds now have become open to achieving more in the way of Truth; and so as you spend this time together and discuss those things regarding energy, know that those of us who are in Spirit and who are Energy are here in your midst and do participate in that which you are doing.

It is the joy of JEY, each time that you meet, to be here in your presence and to take a part in all that you are doing and thinking. We who are in Spirit do indeed wish for you the ability to be able to understand more fully **all that there is for you to know**. You are, of course, in a time of not being able to fully understand all the secrets of the Universe; but know this...that your minds have been opened to much since you have been on your Spiritual Journey that you would not have been able to understand otherwise. And so it is the joy of JEY and others who communicate with you that you have the ability now to open your hearts and minds to fully understand ALL the information that is being given to you through this which is the Spiritual aspect of your meetings.

We who have the opportunity to come to be with you wish to discuss one thing with you during this time of meeting, and that is this. As you have the opportunity to intercept that which is Truth that can be given to you, allow that to become a part of you...not just your understanding, but a part of you physically and mentally as well as Spiritually. Even as you are able to entertain those thoughts that are being given to you and then not being able to fully recognize the beauty of all those thoughts that have been given to you, know that you have the ability to come now to these meetings and hear these words that are spoken for you and then to be able to grasp the deep meaning of each thing that is given to you.

You have been given much in the way of beauty during this time of meeting, and you will indeed benefit from all that you have discussed. JEY would ask you to be alert to every bit of Truth that you can receive during these times of meeting. Know that you grow in Spiritual aspect each time you attend; but know, too, that even as you discuss the ideas that you have discussed here at this time, your Spirit leaps with joy for you are growing in your Spiritual understanding, and also in the mental aspect of your being. JEY would also say to you that as you now look forward to days ahead, you will be more alert to those things that are occurring upon the Earth that do affect you and all the Earth, those things that are happening throughout the Universe as well. It is through your deeper understanding of the Universe that you are drawing to self the ability to understand more fully the association that you have with those things of the Creator that do indeed increase your understanding of the Universe.

Even as you are OF the Creator, that which is the Reality of you is OF the Creator, even so is everyone else who lives upon the Earth Plane or who has ever lived upon the Earth Plane! Look not upon another with disdain, for that person is indeed an embodiment of the Spirit of the Creator, even as you are, and does indeed merit that which is your Love and your Concern and your Understanding. As you have the ability to do much and experience much in this lifetime, there are many others who do not have that opportunity. Know that as you look upon another who needs help in some way, you are to be open and willing to provide that help insofar as you have the understanding to do so.

You have been given much; and even as you are given much, much is expected of you. Let that never be forgotten. Even as you have been greatly blessed in receiving Truth, know that you are to share that which you can share as you live upon the Earth Plane. You are Spirit-in-Body. Enjoy what you know with regard to that which is your Spirit. Rejoice in that! And look upon others and realize that they, too, have that which is the Spirit of the Creator, and they should be able to rejoice in that knowledge. But not all have the understanding that you do. If perchance you have the opportunity to share with others the fact that they, too, have that aspect of the

Creator within them, then do so for that is something that is acceptable to them. Even as you have had to go beyond your understanding of those things which are written in what you call your Scriptures, know that there are Truths within those Scriptures that all people have available to them. However, not all can understand what is written. And even as you have the ability to know that you are told in those Scriptures that the Spirit of the Creator does reside in this which is your physical body, there are those who have no knowledge of that. Yet, they do appear to be having a great understanding of that which they call their Scriptures.

Simply point that out to many who come into your circle of friends and allow them to know that they are Spiritual beyond all belief, simply because of that Spirit that resides within them. They, too, can begin their own search and can rejoice in that knowledge that you have shared with them.

You now are those who can spread joy to many others upon the Earth; and as they then attempt to find their way through the morass of all that is occurring upon the Earth, know that you have the ability to help them open the path that will in turn help them to be more knowledgeable of that which is their relationship to the Creator.

Be at Peace with all that you have discussed during this time of meeting. Be at Peace with what those who have come to you in the years past have brought to you. JEY would say to you that you have been blessed more than many upon the Earth, and as a result you must in turn share with others and bless others in the same way. Even as JEY comes in the will of the Creator, you too will go and serve in the will of the Creator. Be at Peace with that knowledge! You are Spirit, you are Spirit-in-Body. Know that your Spirit has the ability to do what JEY is doing for you. Allow it to be so. Go in Peace. AMEN.
