

MESSAGE FROM JEY, 6-24-04

This attempt to communicate was the first time since the beginning of my illness in March.

JEY is here, and JEY does indeed recognize the time to communicate with you, and does come in the will of the Creator. Let it be known that JEY has missed our times together and will attempt to communicate at this time. It is the will of the Creator to assist in our togetherness. Just allow your thoughts to be sent to our Creator at which time the one who is known as JEY will come in the will of the Creator and be with you. Be there now at this time.

JEY does indeed wish to communicate with you at this time, and JEY will attempt to do so. It is now a time for those who have been with you during this time of your illness to be with you, and they will be with you at this time. JEY would tell you at this time that there is a need for this one to be in your presence; and JEY lets you know at this time that as you meet as OMEGA and are here in this group, it is the will of the Creator, as always, to allow those who communicate with you to be in your presence. JEY would tell you at this time that indeed there is a need for this communication; and JEY would let you know at this time that there is an opportunity for this communication to take place.

It is at this time that this one will say to you that you need to simply be at peace, to relax, and allow this one to use your voice. This one is JEY. This one does come in the will of the Creator and now will attempt to communicate with you.

There is at this time a need for understanding with regard to those things which you have read. Know that you have discussed many things during this time of meeting, and there is an opportunity for you to understand more with regard to that which you have discussed. One topic is simply that which is an opportunity to forgive another for the sins in your lives; but it is important that you understand that forgiveness is necessary for those who are Spirit-in-body. You have talked about the importance of forgiveness and that it is an act of Spirit that forgiveness does take place.

One can forgive another for actions upon the Earth; but it is more important that your Spirit does forgive another. Allow that which is the Creator of us all to know when there is a need for you to forgive. It is important that be uppermost in dealing with others who are Spirit-in-Body at this time. And do not forget the importance of the reality of you, and that is Spirit. And so as Spirit does attempt to progress upon the Earth, that which is Spirit will indeed attempt to allow forgiveness to take place. It is important that you simply welcome the actions of Spirit in your life and allow it to be uppermost in your life and allow it to be uppermost in your mind as you attempt to forgive others at this time. Know that it is important, as you discussed, that you realize that forgiveness is OF the Spirit, and so it must take place within that which is your physical body, your physical mind, but it is important to the Spirit that indeed forgiveness does take place with that which is Spirit as well.

This one can tell you at this time that within the short life of those which have lived on Earth at this time, there is an opportunity for you to know about those things of importance to you...and that is that you have read in this time together many things of importance. Number one is that you are living in body...your Spirit is living in body. Know that as that takes place you must not forget that the reality of you is living within your body. It does indeed have a home in your body. And so it is that Spirit forgiveness, Spirit as it lives in body, simply is the reality of you and that must be uppermost in your mind as you search upon this Earth for Spiritual things. You must know that Spiritual growth is related to that which is Spirit, and you must understand that as those who come to you are simply here to help you grow in Spirit in this lifetime.

You have, at this time, that which is life and forgiveness and all that you have to understand with regard to Spirit, but you need to know more about Spirit and its relationship to progression in this life. As you live as Spirit-in-Body, we are here to tell you every life which you lived and progressed will stay with you forever; but there is no fear of regression. You do not have a time upon the Earth when your Spirit will regress. That is important for you to accept and remember! That which you have read which came from HORIZON does indeed tell you that regression is not something that you need to be concerned about. You are simply to be concerned about making progress in every life that you live. And so as you have lived in this life and have indeed had that which has been many blessings where you have sought after Truth in this life, you have indeed progressed. You do not need to be worried about regression.

And so as this one comes to you and talks to you in a time that is necessary, be aware that it is important that you do have an opportunity, each day, to allow JEY to come and talk with you. This is important. And so JEY will not at this time attempt to give you simply a lesson as JEY usually does during

this time of meditation. But JEY will come in the future when this one is well in body, and in Spirit as well.

Know that you have been through a time of great importance for you. And so this one will simply come and talk with you when there is a time for meditation and communication in the days to come. Be at peace. Know that this one is glad when once again we are in a time of communication. You have the opportunity now to allow JEY to talk with you about those things of importance in this lifetime. Be at peace. Know that JEY will come again and will discuss those things that are important to your lifetime, and lifetimes, in the days to come. Be at peace. AMEN
