

## MESSAGE FROM JEY, 1-02-05

JEY is here. JEY does come now, in this time of meeting, to discuss those things which you have discussed. Let it be known to each of you who are here that indeed JEY does come with love for each of you, and JEY does come to speak Truth; for it is known throughout the Spirit Realm that those of us who have the opportunity to communicate with you who are Spirit-in-Body do indeed have the necessity to speak Truth. And so as it is the will of the Creator to communicate with you, we come always in a time of Truth and in regard to that which is your meeting.

JEY is aware at this time of the many needs upon the Earth, and JEY can tell you that what has transpired upon the Earth in these days past has been a necessity upon the Earth, for it does indeed mark a cleansing time, a time which we have spoken of which was to come. You have been witness to those things which are in a time of cleansing. And so as you speak of a shaking of the Earth, as earthquakes, and you speak of the moving of the waters upon the Earth, and the time of taking of the Earth life of many people, you are speaking of a time of cleansing.

And let it be known to you that this does not end the time of cleansing of the Earth; for you will find that there will be more to follow and there will be many people who will not be ready for what is to follow. But allow JEY to say to you that you are living upon the Earth as Spirit-in-Body at a time when there is much need for your services upon the Earth. You have come here to be of service to mankind, and you will find that you will be of service to mankind. Perchance, if you did have an opportunity to live through that which was the upheaval of waters upon the Earth, who would you have traded places with? Have you been in tune with those people who have indeed experienced such time so that if you had been able to overcome the waters and had lived through those waters, could you have imagined the trials that you would have to go through and that which they are still going through at this time? Know that mankind does not know when those troubles will come upon the Earth, and cannot be prepared for them. But you who are here as OMEGA have an opportunity to be prepared for whatever lies ahead for mankind upon the Earth; and so you do not bring that which is judgment upon others who live upon the Earth at this time. You simply are aware of that which is to happen to mankind....not exactly what is going to happen, but what is to happen to mankind upon the Earth; and thus to participate to the extent that you know in order to bring relief to those who are affected by these things that occur upon the Earth.

It is now your duty to be prepared to help those people who are suffering, whether from a time of war or a time of calamity upon the Earth. If there are those who are suffering, you are to be prepared to help in all ways that you can. JEY is asking you to be in prayer for those people who have suffered the calamity through earthquake or through water. He is asking you to be in prayer for those people who are suffering through that which is war. Know that great war that you are involved in is not the only war that is taking place upon Earth. There are many places that are now involved in destruction and killing throughout the Earth that you do not often hear about. Yet there are many people suffering in those areas.

And so as you live here in great comfort in your country, know that you need to be thankful for that which you observe within your own country. There are many events happening which are of great dread throughout the Earth, and many events happening that are dreadful within your own country. But you who are OMEGA need to be thankful for those things that you know and observe here in your country each day of your life, for you are leading protected lives and you do not need to be fearful of what the future holds.

What you need to be concerned about at this time is simply that you prepare for what is to come and be willing to accept what is to come with regard to these things which are occurring throughout the Earth. You have had a time of awakening following that which is the shaking of the Earth and the rolling of the waters upon the Earth. There indeed has been an awakening. It is a natural event; it is not a spiritual event. But there were many people touched by this and many lives have been changed by this. Know that you do not have to have a spiritual event always to have your lives changed. Indeed there comes a time upon the Earth when the Earth does benefit from that which is a time of cleansing; and as a result of that, you are seeing how it affects the lives of people upon the Earth. There are things that do indeed affect your life upon Earth; but you can be aware that this group called OMEGA has affected your life for the better! Even as you have observed many things that have happened in your own lives, they are simply minute with regard to effect in that they do not leave lasting damage to your life.

And so you will indeed be thankful for many things. JEY does not ask you to welcome events into your life that are harmful but to be thankful for them when they do come.

JEY can tell you at this time that what you have observed from Spirits who have come to you have

all been a time of preparing you for what is to come. Even as you have mentioned that which is HORIZON, who asked you to look beyond the horizon to see those things of beauty and spirit, you have yet to look beyond the horizon. Even as JEY has come to teach you of the love of the Creator, JEY is asking you to believe in that love and to accept that love even now. And so as JEY has come, those who have come to you will continue to communicate with you. Those who are Spirit do not ever desert you. They are here to help you, even as JEY is.

And so JEY would ask you to begin to do unto others as you will have them do unto you. JEY is aware that this is an old adage in your language; but you must begin to do unto others as you would have them do unto you. This is important!

Be at peace with what you have observed upon the Earth. Know that there are many things about which you can do nothing **physically**, but you have the opportunity to be in prayer for each one who has been harmed upon the Earth, whether through war or through natural calamities. You will be able to help through the prayers that you can send forth. And so you must take a new direction in regard to your prayer life. Let it be more a time of prayer for those who are in a time of need at this time. It is so easy for mankind, or spirit-in-body, to forget to pray as they observe these things happening upon the Earth. Your prayers **do count**. You are not alone, ever. Those of us who are in Spirit are always in your presence and will remain so. We ask you now to remember all of those in your life who have a need for prayer; but remember all throughout the Earth who are in need of prayer at this time. It is important for you to do so.

And so as you talk about this which is the reality of all that is upon the Earth, remember that you are part of that reality. You are here to help others, to be with others, and seek for care for others and to seek in prayer for others. Be now in a time of peace and know that we who are in Spirit will be with you at all times in the time to come. Go now in peace. AMEN.
