

6-12-2005

JEY is here and indeed JEY does come in the will of the Creator. It is known at this time that those of you who are here as OMEGA have indeed found this to be a time worthwhile in the time of sharing and giving of your time.

We who are in the Spirit Realm do give thanks for each of you and do come asking for your prayers and blessings, even as we give our prayers and blessings for you.

It is known by those of us who are in the Spirit Realm that indeed there is much happening upon the Earth, and within the Earth, at this time that should be of concern to all of you. Know that we who are in the Spirit Realm do look with much dismay upon the population of the Earth, knowing that mistakes have been made and problems have arisen from those mistakes that have been made and would ask you to be in prayer for those who are in distress upon the Earth, and know that there are many upon the Earth at this time who do not have the guidance of the Creator in their lives. And so we would ask you to be in prayer and to be attentive to the many upon the Earth who are in need of prayer and guidance at this time.

We who are in Spirit, and who communicate with you, do come at this time for a time of communication. We simply ask that you remain in a time of meditation and allow those of us who are here to communicate with you to be in direct communication through this one who is instrument and know that what we have to tell you is indeed Truth. And we can tell you this about Truth, and that is that Truth is the one thing that is necessary for all of mankind upon the Earth. Know that many things that you hear this day through your news media and through types of communication to which you are open, do not always bear that which is a signature of Truth. What you often hear is opinion, but know that opinion does not always bear Truth because you, as a Spirit-in-Body are prone to state what comes to you as opinion. In other words, it is based on what you think and not what you know in your own being as Truth. And so we would ask you simply to differentiate between that which is Truth and that which is opinion, for know that many who are Spirit-in-Body speak only that which would be opinion in their lives.

And so we ask you to differentiate, to come to know Truth as it is given to you as it is known to those of us who are in the Spirit Realm and through that which can come from the Creator of All that Is.

We would not come to you with any information less than Truth. We attempt to give you only that which is Truth, whether it in your mind is good or bad, whether it in your mind is opinion or Truth. And so we come again to give you the Truth of what is occurring upon the Earth.

Will you accept this now, at this time? As there many places upon the Earth that are experiencing those things that are happening as a result of those things that are of the Earth...in other words, for example, we are thinking of those things that are a result of an explosion or something that is happening upon the Earth, and all those events upon the Earth that are the things that come from nature. You need to think about those things that are explosions that are brought about by mankind upon the Earth, and of those things that are of the Earth...those things that are explosions within volcanoes and other things that may happen upon the Earth. You must differentiate between what is fact and what is fiction. In other words, we ask you not to believe so much those things that come from mankind, but rather those things that come from within the Earth that are indeed caused by the Earth. Know that you cannot find Truth in those things that come from mankind. And so, at this point allow JEY to further state this to you.

As you are Spirit-in-body upon the Earth, know that you are given certain leeway within your lives to believe whatever you choose to believe. In other words, we do not force you to believe anything; but know that since you have, as we call it the leeway to believe whatever you choose to believe, we ask you simply to be in prayer about such before you internalize those things that you believe to be true.

What we ask you to come to believe are those things that can be brought to you through prayer, through communication with Spirit. We would ask you be in prayer about those things that you choose to believe. Not all things are Truth, as you will find upon this Earth, and so you will be wise to search within self and ask that your spirit will be able to tell you of those things of Truth. Even as we come to tell you Truth, it is wise to check with your Spirit within you to know that something is Truth, whatever the source may be.

We would say to you at this time that even as there are many upon the Earth who do find within their own thinking to bring you Truth, we would ask you to be wary of all that you hear from other persons upon the Earth. They are simply mankind, even as you are, and they do not know more than you know. But you must indeed be careful about what you take into your being and internalize in your thinking that which you take to be Truth. And so we who are in Spirit ask you to be very careful about what you take

into your thinking as Truth upon the Earth. We who are in Spirit must come to you in Truth because it is the will of the Creator. We cannot mislead you in any way as we come to communicate with you. So, those of you who find it within your being to accept what we say as Truth, then we give you thanks for that because we come to you in Truth and with the understanding that what we are sharing with you is Truth.

And now with such said, we would come to tell you more with regard to Truth. Let this be known to you. There is at this time upon the Earth many, many groups that call themselves religious groups. Know that mankind is well aware of the fact that they are hearing much in the way of untruth; but sometimes each of you are hearing something that is said that may come from a Spiritual group that is not worthy of your belief. And so you must be well aware of what is Truth, and ask for guidance with regard to what is Truth, when you are hearing some religious groups upon the Earth. Even as you hear some religious groups, there is dissatisfaction between groups. As you know, in your own country the number of groups that do have their own way of belief are at odds with other groups that are in this country.

Even as you have been led to believe all that is taught to you, you must ask for guidance in your acceptance of Truth. Know what is Truth. Practice what is Truth. No one who is living as Spirit-in-Body has the right to accept what they want to believe versus what they do not want to believe. In other words, you do not have the right to choose what you want to believe if it is in keeping with what you believe versus that which is opposite what you believe.

Mankind does not have the right to decide for himself all those things that are in keeping with what they believe within their own religion. And so you must be careful about WHAT you believe. You do not always believe what JEY says to you, but JEY asks you to be in prayer, carefully in prayer, about what you will believe when it is brought to you by Spirit. We will not ask you to simply try to internalize something that you do not hold to be Truth, but we would ask you to internalize that which you DO hold to be Truth. It is wise for each of you who are OMEGA to attempt to discern truth as it is brought to you....NOT to discern Truth that is against all of your beliefs, but to discern Truth as it is brought to you and said to be Truth.

And so it is at this time that JEY would ask that you be in prayer for all of mankind that is upon the Earth, for there are many things that are being taught to mankind that keep them in conflict with other groups upon the Earth. This should not be, because all mankind does have the right to hear and receive Truth. If there is something taught to them that is in conflict with Truth, this is wrong. And so JEY would ask you to be prayerful about all that you hear and tend to believe with regard to what you hear.

And so at this time JEY ask you simply to be at peace with where you are in this which is the OMEGA group. Know that you have the opportunity to hear Truth from those of us who are in Spirit. We do not ask you always to believe what you hear from those who are Spirit, because there are those in spirit who attempt to mislead those who are living upon the Earth. Again, JEY would urge you to be in prayer about that which is Truth and about that which is un-truth.

You know that when you go to your Creator of All That Is and ask that these things be clarified to you that they will be clarified! And so we ask you to be at peace with this. Know that JEY has given you much to do in time to come; but know that JEY has worked with you long enough and hard enough to know that you are willing to accept what JEY has to say to you with regard to prayer. And so we would ask you at this point to be in prayer, to be in quiet meditation as you have the time, and to know that we who are in Spirit and who do come to you as Guardian of your Spirit will attempt to be with you at those times.

Go now in peace. May you forever be able to find peace within your lives, and may you know that as you search for peace you can indeed find peace and you can find Truth. Go now in Love. Amen.
